One-Line Summary:

I'm a VR developer, experienced web developer, and entrepreneur with a degree in Computer & Information Science who is determined to bring to life forward-thinking, ambitious, and visionary technological projects with other talented professionals.

Future Career Goals:

I'd love to work with a team on a complex and popular VR application whether concepting, developing, or storywriting, for either high-end or low-end VR headsets.

I'm also interested in being involved with the *right* start-up opportunities, lending my direction on the web side of things.

Shawn K.

Whatever it is I work on, I prefer to work at the leading edge

What It's Like To Work With Me:

I am going to jump into your existing dynamic, confusing, and troublesome application and dev challenges, make sense of them, fix them, and recommend a way forward one way or another. I can both take a project leadership role or seamlessly fall into place with your dev team.

Career History:

- 2016** Built data architecture and complex automated phone system with thousands of users for **X-Factor Advertising**. Released startup **erndo.com** with a team of talented entrepreneurs, myself as CWO.
- 2015** Released my first VR app on the android store, "**River of Dreams**".
- 2014** Developed for a client in the pharmaceutical clinical trials industry: a new data architecture, custom api, custom data tracking software and IVR software that handles and tracks tens of thousands of calls per month from clinical trial participants.
- 2013** Began **self-employed** consultation and development business. Clients include film production companies, a school, and an advertising agency.
- 2009-13** Hired as Salaried developer at various Portland web agencies: **Steelhead Advertising**, **eROI**, and **Substance Inc**. I completed large development projects for clients including: **Nike**, **LG Electronics**, **Panasonic**, **Salomon Snowboards**, **Traveloregon**, **Motorola**, **Copic Markers**, **Leupold Sporting Optics**, and the **Portland Timbers MLS Soccer Team**.
- 2008-9** Worked at leading Eugene-area web agency **Bravo Web Solutions** as lead developer.
- 2007-8** Hired to dev team for Venture Capital startup in Eugene, **Moonshadow E-Commerce** which was the #2 competitor to Amazon in online physical media sales.
- 2007** Earned Bachelors of Science in Computer and Information Science, University of Oregon.
- 2004** Began working professionally as a developer at **University of Oregon** as I attended school.
- 2002** Helped customers of **Norton Antivirus** products for 2 years on the phones in a professional call center environment as a Virus Removal & Tech Support Rep.
- 1999** Built free silly windows games that were internationally distributed in the 90s.
- 1997** Built my first web sites.
- 1996** Taught myself programming at age 14.
